10. INCORPORATION BY REFERENCE

- (a) The Framework and the Second Party Opinion are incorporated by reference into this Applicable Pricing Supplement.
- (b) Notwithstanding the incorporation by reference of the Framework and the Second Party Opinion into this Applicable Pricing Supplement, the attention of investors contemplating investing in the Notes is drawn to the section below headed "Additional risk factors relating to Notes issued as Green Bonds, Social Bonds or Sustainability Bonds".

11. ADDITIONAL RISK FACTORS RELATING TO NOTES ISSUED AS GREEN BONDS, SOCIAL BONDS OR SUSTAINABILITY BONDS

In respect of any Notes issued as Green Bonds, Social Bonds or Sustainability Bonds, there can be no assurance that the use of proceeds will be suitable for the investment criteria of the Noteholder.

- (a) The Applicable Pricing Supplement relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply the proceeds from an offer of those Notes specifically for eligible Green Projects, Social Projects or Sustainability Projects (being a combination of Green Projects and Social Projects). In this case, the Applicable Pricing Supplement will provide additional information in relation to the intended use of proceeds in respect of the Notes, including the applicable investment category/ies and eligibility criteria. This information may be provided by cross-referencing to the Framework. The Noteholders should determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such as Noteholder deems necessary.
- (b) In particular, no assurance is given by the Issuer that the use of such proceeds for any Green Projects, Social Projects or Sustainability Projects, as applicable, will satisfy, whether in whole or in part, any present or future Noteholder expectations or requirements as regards any investment criteria or guidelines with which such Noteholder or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, social or sustainability impact of any projects or uses, the subject of or related to, any Green Projects, Social Projects or Sustainability Projects, as applicable.
- (c) The Framework has been aligned to international best practice and guidance as issued by ICMA and unless otherwise indicated, terms used in the Framework have the meanings given to them in the GBP, SBP and SBG, as applicable. The principles and guidelines in the GBP, SBP and SBG are widely accepted by issuers and investors and provide a credible framework for sustainability bond issuances. Despite this – and although the publication by ICMA of the GBP, SBP and SBG and their predecessors has resulted in greater standardisation – it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "social", "sustainability" or equivalently labelled project or as to what precise attributes are required for a particular project to be defined as "green", "social", "sustainability" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to Noteholders that any projects or uses the subject of, or related to, any Green Projects, Social Projects or Sustainability Projects, as applicable, will meet any or all investor expectations regarding such "green", "social" or "sustainability" or other equivalently-labelled performance objectives or that any adverse environmental, social, sustainability and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects, Social Projects or Sustainability Projects, as applicable.
- (d) No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Green Projects, Social Projects or Sustainability Projects, as applicable, to fulfil any environmental, social, sustainability and/or other criteria. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Noteholders must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight, provided that the JSE Debt Listings Requirements require Independent External Reviewers to be appointed with reference to the Guidelines on External Reviews.
- (e) While it is the intention of the Issuer to apply the proceeds of any Notes so specified for eligible Green Projects, Social Projects or Sustainability Projects, as applicable, in, or substantially in, the manner described in the relevant Applicable Pricing Supplement, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Green Projects, Social Projects or

Sustainability Projects, as applicable, will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such Green Projects, Social Projects or Sustainability Projects, as applicable. Nor can there be any assurance that such Green Projects, Social Projects or Sustainability Projects, as applicable, will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes.

- (f) Prospective investors should refer to the Framework (available on the following page of the Issuer's website: <https://www.redefine.co.za/view-file/Sustainable-Finance-Framework.pdf>) and the Second Party Opinion (available on the following page of the Issuer's website: <https://www.redefine.co.za/view-file/RdF-SPO.pdf>) for further information.
