COMMENTARY

PROFILE

Redefine is an internally managed Real Estate Investment Trust (REIT) with a primary goal of growing and improving cash flow to deliver quality earnings, which will underpin sustained growth in distributions, and support growth in total return per share. Redefine is listed on the Johannesburg Stock Exchange (JSE) with a market capitalisation of R58,2 billion and is included in the JSE Top 40 index. Redefine manages a diversified property asset platform with a value of R67,8 billion, comprising local and international property investments. Redefine's shares are among the most actively traded in the REIT sector, making it a highly liquid single entry point for gaining exposure to quality domestic properties and a spread of multiple international commercial real estate markets.

At 29 February 2016, Redefine's diversified, local property portfolio was valued at R54,3 billion. The group's international real estate investments, valued at R13,5 billion represent 19.9% of total property assets and provide geographic diversification into the UK, German and Australian property markets. Redefine has a 30.1% equity interest, with a value of R5,9 billion, in Redefine International PLC (RI PLC) which is listed on both the London Stock Exchange and the JSE. Redefine co-owns with RI PLC a German retail portfolio valued at R805 million. In addition, Redefine has a R6,5 billion presence in the Australian property market through a direct 50% interest in North Sydney's landmark tower, Northpoint, as well as a holding of 25.5% in Cromwell Property Group (Cromwell), one of the leading property groups listed on the Australian Stock Exchange.

FINANCIAL RESULTS

Redefine's directors have declared a distribution of 41,7 (2015: 39,0) cents per share for the six months ended 29 February 2016, an increase of 6.9% on the comparable period, which is at the top end of market guidance. In Rand terms, distributable income for the period increased by 29.3% (2015: 31.4%) benefiting from a number of substantial quality acquisitions made in recent years.

Property portfolio income for the period contributed 96.6% (2015: 95.2%) of total revenue (excluding insurance proceeds received), income from listed securities 1.3% (2015: 4.3%), and fee and trading income of 2.1% (2015: 0.5%).

Operating costs were 34.4% (2015: 34.1%) of contractual rental income (excluding straight-line rental income accruals) – with the increase resulting mainly from increased administered costs. Net of electricity and utility recoveries, operating costs were 17.6% (2015: 17.8%) of contractual rental income. Redefine's international property investments contributed 21.2% (2015: 16.5%) of distributable income.

CHANGES IN FAIR VALUES

The group's property portfolio was internally valued by the directors at 29 February 2016 producing a net decrease in value of R605,9 million – a consequence of widening capitalisation rates following the upward trajectory of the interest rate cycle. In terms of IAS 40 and IFRS 13, Redefine's investment properties are measured at fair value and are categorised as level 3 investments. There were no transfers between levels 1, 2 and 3 during the period. The investment in listed securities decreased in value by R166,6 million during the period. The balance of R230,9 million relates to the increase in the mark-to-market of the group's interest rate swaps, which protect the group against adverse interest rate movements. In terms of IAS 39 and IFRS 13, Redefine's listed securities and interest rate swaps are measured at fair value through profit or loss and are categorised as level 1 and level 2 investments respectively. There were no transfers between levels 1, 2 and 3 during the period.

Hatfield Square, one of Redefine's secondary office assets, is being converted by RSL into student accommodation at a cost of R757 million with a bed capacity of 2 200 beds.

Sustainability: As part of Redefine's focus on sustainability and cost efficiency, various energy-efficient and sustainable building technologies are being implemented in new developments as well as in existing buildings, including the installation of solar PV and smart metering of electricity and water. To protect income, Redefine has taken steps to ensure that there is uninterrupted electricity supply at a number of its key retail properties.

ACQUISITION OF INTEREST IN ECHO PRIME PROPERTIES (EPP)

As more fully set out in a SENS announcement published on 1 March 2016, Redefine significantly extended its international strategy, which is centred on geographic diversification and exploiting attractive initial yield spreads, via an initial 75% investment into a €1.2 billion high-yielding commercial platform comprising 18 properties in the Polish market. It is Redefine's intention to reduce its shareholding to approximately 50% through the immediate on-sale of just over 25% of EPP's shares.

Antitrust clearance by the European Union, which was a key condition precedent, was obtained on 28 April 2016. The transaction is now expected to be completed at the end of May 2016 on the fulfilment of the remaining conditions precedent. Redefine's consideration price will be funded by offshore bridge funding with a 12-month term, and it is anticipated that this bridge funding will in due course be settled through a number of alternatives being considered such as proceeds from a possible placement by Redefine of bonds convertible into Redefine ordinary shares or similar instruments.

FUNDING

Redefine's debt represented 37.2% (2015: 36.4%) of the value of its property assets as at 29 February 2016. The average cost of funding is 8.5% (2015: 8.4%) – interest rates are fixed on 79.3% (2015: 81.3%) of borrowings for an average period of 2,4 years (2015: 2,8 years). The interest cover ratio (which includes equity accounted profit and listed security income) is 3.7 (2015: 3.4).

During the period, Redefine conserved R979 million in cash through the issue of 96 million shares under the distribution reinvestment alternative, which was taken up by 51.5% of shareholders.

Moody's credit rating: The rating was refreshed during March 2016 and remains unchanged as follows:

Global long-term Baa3	Global short-term P-3
National long-term A3.za	National short-term P-2.za

CONTINGENCIES AND COMMITMENTS

At 29 February 2016, Redefine had guarantees and suretyships in respect of its Black Economic Empowerment initiatives amounting to R175 million (2015: R195 million). Capital commitments outstanding (excluding EPP) amount to R2,2 billion (2015: R2,2 billion) and committed property acquisitions totalled R377 million (2015: R415 million). Future commitments will be funded by undrawn banking facilities and the acquisition of EPP will be funded by an initial bridging facility of €250 million.

BROAD-BASED BLACK ECONOMIC EMPOWERMENT

Redefine has achieved a Level 3 BBBEE contributor rating, significantly bolstering its empowerment credentials compared to the previous Level 6 status.

PROSPECTS

Domestically challenging property fundamentals are anticipated to persist across all sectors, principally due to electricity tariff increases, exceptionally weak business and consumer confidence, potentially long-term damage to the agricultural sector from the drought, major downsizing in the mining sector (despite some relief from the weaker currency and improvement in commodity prices), political uncertainty and labour unrest. We see little prospect of a catalyst for significant change in local business conditions in the short to medium term.

On the international front, the trend of lower interest rates and elusive growth are set to continue. Attractive initial yield spreads and investing in offshore markets that offer growth through expansion works for Redefine with the local swings covered by international round-about.

Redefine's diversified asset base, combined with management's relentless focus on disciplined execution of its strategic priorities will drive achievement of its long term goals. Excluding accretive income benefits from the EPP transaction, we are confident of achieving distribution per share growth of 6% to 7% for the full 2016 financial year. The completion of the EPP transaction at the end of May 2016 is anticipated to yield accretive earnings of 1 cent per share in the second financial half of 2016.

This forecast is predicated on the assumption that current trading conditions will prevail. Forecast rental income is based on contractual terms and anticipated market-related renewals. The forecast has not been reviewed or reported on by the group's independent external auditors.

TAX IMPLICATIONS

Redefine was granted REIT status by the JSE with effect from 1 September 2013 in line with the REIT structure as provided for in the Income Tax Act, 58 of 1962, as amended (the Income Tax Act) and section 13 of the JSE Listings Requirements.

The REIT structure is a tax regime that allows a REIT to deduct qualifying distributions paid to investors, in determining its taxable income.

The cash dividend of 41,70000 cents per share meets the requirements of a qualifying distribution for the purposes of section 25BB of the Income Tax Act (a qualifying distribution) with the result that:

- Qualifying distributions received by resident Redefine shareholders must be included in the gross income of such shareholders (as a non-exempt dividend in terms of section 10(1)(k)(aa) of the Income Tax Act), with the effect that the qualifying distribution is taxable as income in the hands of the Redefine shareholder. These qualifying distributions are however exempt from dividends withholding tax, provided that the South African resident shareholders provided the following forms to their CSDP or broker, as the case may be, in respect of uncertificated shares, or the company, in respect of certificated shares:

- a declaration that the dividends are exempt from dividends tax; and
- a written undertaking to inform the CSDP, broker or the company, as the case may be, should the circumstances affecting the exemption change or the beneficial owner cease to be the beneficial owner, both in the form prescribed by the Commissioner for the South African Revenue Service.

Shareholders are advised to contact their CSDP, broker or the company, as the case may be, to arrange for the above mentioned documents to be submitted prior to payment of the distribution, if such documents have not already been submitted.

- Qualifying distributions received by non-resident Redefine shareholders will not be taxable as income and instead will be treated as ordinary dividends but which are exempt in terms of the usual dividend exemptions per section 10(1)(k) of the Income Tax Act. It should be noted that until 31 December 2013, qualifying distributions received by non-residents were not subject to dividends withholding tax. Since 1 January 2014 any qualifying distribution will be subject to dividends withholding tax at 15%, unless the rate is reduced in terms of any applicable

agreement for the avoidance of double taxation (DTA) between South Africa and the country of residence of the shareholder. Assuming dividends withholding tax will be withheld at a rate of 15%, the net dividend amount due to non-resident shareholders is 35,44500 cents per share. A reduced dividend withholding rate in terms of the applicable DTA, may only be relied upon if the non-resident shareholder has provided the following forms to their CSDP or broker, as the case may be, in respect of uncertificated shares, or the company, in respect of certificated shares:

- a declaration that the dividend is subject to a reduced rate as a result of the application of a DTA; and
- a written undertaking to inform their CSDP, broker or the company, as the case may be, should the circumstances affecting the reduced rate change or the beneficial owner cease to be the beneficial owner both in the form prescribed by; the Commissioner for the South African Revenue Service.

Non-resident shareholders are advised to contact their CSDP, broker or the company, as the case may be, to arrange for the above mentioned documents to be submitted prior to payment of the dividend if such documents have not already been submitted, if applicable.

Shareholders are advised that in electing to participate in the share reinvestment alternative, pre-taxation funds are utilised for the reinvestment purposes and that taxation will be due on the total cash dividend amount of 41,70000 cents per share.

OTHER INFORMATION

- The ordinary issued share capital of Redefine is 4 850 488 789 ordinary shares of no par value before any election to reinvest the cash dividend.
- Income tax reference number of Redefine: 917/852/484/0.

The cash dividend or share reinvestment alternative may have tax implications for resident as well as non-resident shareholders. Shareholders are therefore encouraged to consult their professional advisers should they be in any doubt as to the appropriate action to take.

DIVIDEND DECLARATION AFTER REPORTING DATE

In line with IAS 10 Events after the Reporting Period, the declaration of the dividend occurred after the end of the reporting period, resulting in a non-adjusting event which is not recognised in the financial statements.

PRIOR YEAR RESTATEMENT

The group's accounting policy for investments in associates and joint ventures is to use the equity method, whereby the investments are initially recognised at cost and increased or decreased by the group's share of post-acquisition profits or losses and other comprehensive income.

In prior periods, the group did not include its share of the associate's other comprehensive income when applying the equity method. Accordingly, these results are restated with the change applied retrospectively. The change is of a non-cash flow nature and has no effect on the distributable income or profit or loss. We believe this change will give a fairer reflection of the economic substance of investments, particularly where those investments operate in foreign currencies and will provide more relevant information to the users of the financial statements.
